

TECHNICAL PERFORMANCE PACKS TECHNOLOGY

AIR FLOW CONTACT SYSTEM

The requirement here is to transfer loads to the body's centre of gravity such that they become neutral, while at the same time minimising the contact areas with the back.

We solve this contradiction by means of a back component where all ventilation components such as large ventilation

channels **01** and specially grooved and perforated EVA pads **02** behind mesh material have practically been moved to the inside.

This ensures that the pack fits close to the back and simultaneously provides optimised back ventilation.

AIRO FLEX

AIRO FLEX is an extremely sturdy material that is both permeable and flexible. We use it for our top-quality hip belts

to ensure optimum load transfer to the hips, with simultaneous maximum ventilation – for utmost carrying comfort.

BRACE LINK

The BRACE LINK adjusts the shoulder belts perfectly to the width of the athletes shoulders. This automatically adjustment endorse the load transfer to the body's centre of gravity, while at

the same time the contact areas with back and shoulders are minimized. Even wearing a neck brace is possible through the BRACE LINK.

VENTI FLAP

The VENTI FLAP system enables folding the back piece away for maximum ventilation, and thus enhanced carrying comfort. During longer ascents, you can increase the distance to your back by opening the adjustment strap to

boost air circulation. During descents you can reduce the distance again, which then ensures that the backpack sits firmly and is completely neutral to movement.

FEATURES

The STAGE 6L is a technical bike backpack with numerous features and details, making it the perfect choice for short enduro rides or manoeuvres in the park. The BRACE LINK carrying system has freely moving shoulder straps for maximum mobility on your bike.

- AIR FLOW CONTACT SYSTEM offers perfect back ventilation
- BRACE LINK for optimal adjustment of the shoulder straps
- Tool compartment (separate, quick-access)
- *Option: HYDRATION BLADDER 2l (included)

6 l, 640 g, 23 x 44 x 6 cm

MATERIAL
Nylon 210/D Ripstop PU coated, P600/D PU coated, Air Mesh, 3D Air Mesh

What makes the STAGE 6L **team** stand out from the other STAGE 6L models is its individual, striking colour concept. There are no differences in the features, however.
